ERP Software for Small Company Management

DESCRIPTION:

This is **Enterprise Resource Planning** (ERP) software for small to medium sized business management and operation. This small business management software provides a new affordable way to manage and organize your business operation flow, and uncovers new business opportunities based on your real business data. It is a Microsoft® Access® based business management software. With 1% cost of regular ERP software, our small business management software empowers you with a modern business tool to run you business more efficiently and profitably.

Key features of this small business management software (small business ERP) include:

- A front page small business management software dashboard interfacing into all your business operations.
- A handy bulletin board to highlight business activities across all business operations such as projects, customers, vendors, employee issues and notes.
- The project management module helps you generate your current projects list, with a project name, project owner's name, customer name, project status and scheduling information. For each project, you can drill through to a project detail form for project detail: working hours, expenses, payment received, project BOM cost material management and total budget balance information. We will help you create a project invoice for each project as well.
- New project BOM module allows you to manage your BOM list and setup the material requirement for inventory management people to purchase the new materials *ERP Plus version Only*
- An on-going project Gantt screen shows all projects time line status and a on hold projects list form shows the projects with some of the issues on hold or overdue.
- Financial management module shows your company financial statements overview and it comes with the financial balance sheet, income statement, expenses report and employee wage report materials inventory cost and company fixed assets management information.
- New company receivable/payable control feature update *ERP Plus version Only*

BUSINESS DATABASE BUILDER
